

1 ABSTRACT OF THE DISCLOSURE
2

3 A casino dice game includes the steps of indicating to a plurality of
4 gamers possible outcomes of at least one roll of two or more die. In addition,
5 wagering odds for each outcome are set. Each of the plurality of gamers makes
6 one or more wagers on the outcome of the roll and one gamer jumbles the two or
7 more die. The face-up number on each die is determined, and distributing
8 payouts according to the wagers made and the outcome of the jumbled dice is
9 completed.
